

THE BEST OF DATA CENTRE SOLUTIONS IN INDIA

Established in 2004 with 15 state-of-the-art data centre facilities across 8 cities, STT GDC India is the undisputed leader in providing data centre services to modern consumers. As a leader in offering customer-centric data centre colocation solutions, we power and protect mission critical infrastructure while maintaining exceptional levels of service and uptime reliability. With a strong presence in areas like secure data centre services and infrastructure management, we command a market share of over 30% and have the largest footprints in terms of providing cost effective, reliable and secured solutions.

CORE STRENGTHS

Being the forerunners of data centre innovation, our core strength lies in our highly talented team and our unique approach towards the dynamic & ever evolving Indian marketplace. By adhering to the best standards of infrastructure management, security and compliance, we seamlessly maintain the trust of stakeholders, employees and the community as a whole. Our customer first and consultative approach helps us to measure every customer requirement precisely, thus enabling us to create tailor made solutions for diverse requirements.

KEY DIFFERENTIATORS

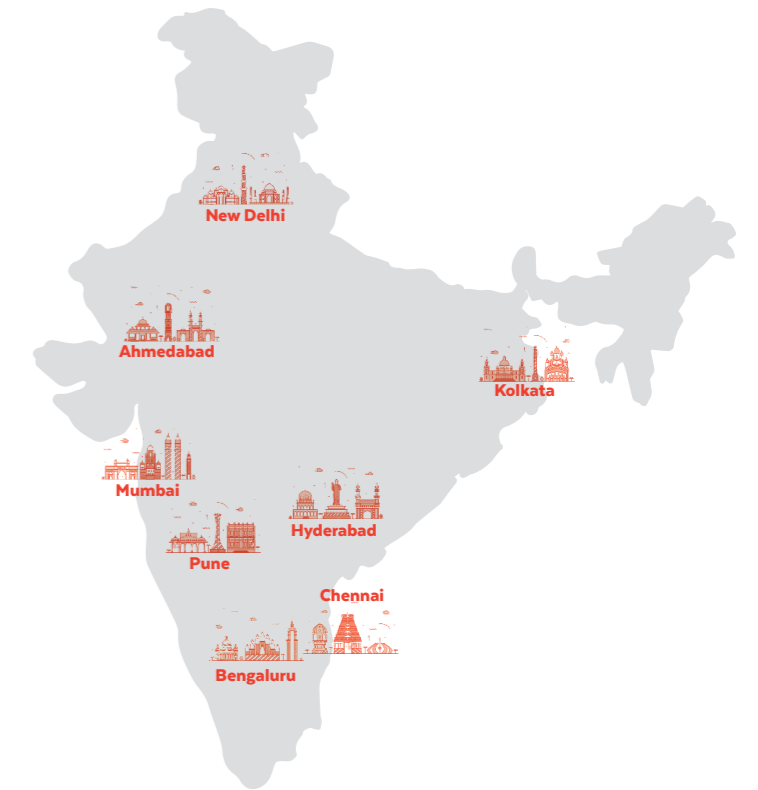

KNOWLEDGE SHARING

- Global Centre of Excellence

The STT GDC group has established a Centre of Operational Excellence department to ensure knowledge-sharing of the industry's key growth drivers and challenges, allowing STT GDC India to identify key global trends to ensure that it stays one step ahead of the competition. Our customers benefit from our enhanced capabilities as we leverage global best practices and expand innovation across the markets to serve our customers better. As the pioneer of offering global quality data centre services as well solving infrastructural challenges, we are the preferred data centre service provider by global customers.

PAN INDIA PRESENCE

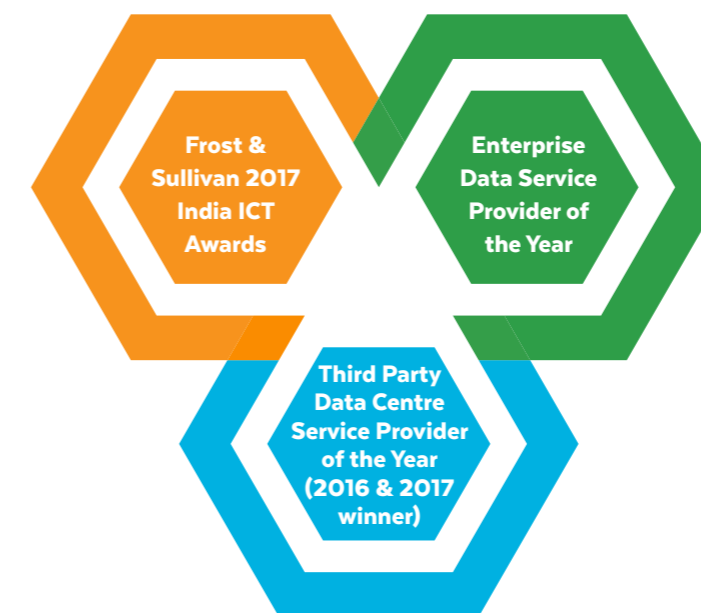

As an industry leader in the data centre space, we operate from a total facility space of 2.15 million sq.ft across India. We have been at the forefront of data centre innovation and have acted as a catalyst in growing the market. Our customer-centric approach aided fully by our robust facilities, efficient designs with green principles and best in class risk management procedures make us world class. We have a well-defined road-map for expansion in cities such as Mumbai, Chennai, Hyderabad, Bangalore and Pune and continue to play a central role in enabling our customers to focus on managing and growing their businesses.

ALLIANCES & INITIATIVES

A robust alliances program based on transparency and excellence has been launched by STT GDC India to offer customers greater value and expertise of the highest standards. The program has been initiated with a clear objective of partnering with system integrators, value added resellers and OEM's to further extend STT GDC India's reach to market and explore new opportunities. Being part of one the largest Asian data centre services group, we have initiated a supplier management initiative to create stronger relationships with our suppliers to derive strategic and commercial benefits for all our stakeholders, which reflect in the value proposition we provide to our customers .
